The counter~revolution will be televised.
Don’t let it see for you. Use your own eyes.
The airwaves have gone to the highest bidder.
Project 2025 neo-fascist lullaby.
A firehose of media lies.
Tearing at the heart of a once strong nation.
 Sources of sedition in strategic positions.
Grifters in gear for a final sedition.
Favors getting called in
High alert for the cult within.
Awaiting their cue from fearless leader.
Laws for sale, black hands in the mail.
Q , a fantasy of freedom feeding the passel and cashing in.
The Global agenda ,a corporate stupender.
Humanity in the profit blender
Winepress of the wrath of avarice and greed.
Turned by the want of a few over everyone else’s need.

We need an invisible fence.
Equanimity with the global south.
Is our best defense.
A wall of economic equality.
In harmony with earth sky and sea.
Could be insurance for all our liberty.
It’s small d democracy we all need.
Lawful constitutional power can fulfill the planet’s need.
The commons fate in the hands of the citizens.
Rights for nature because nature is life.
The right for all to live fairly and balance this thing.
Before we toll our Mother’s bell.
And turn this beautiful planet.

Into our children's hell.
For power and bling.
